Ms. Scott,

You do need to complete the Notification as a **generator** of PCB waste. You will need the ID # for the manifest and any other records.

Please, let me know if you have any other questions.

Regards,
Amy

Subject PCB Disposal question

Good Afternoon Ms. Hensley,

If a facility has a one-time PCB disposal of a capacitor, is the facility required to complete and submit a "Notification of PCB Activity" form?

The facility is a construction company.

They do not store PCB containing product onsite.

They are not a TSDF under RCRA.

They do not accept PCB product from others.

Again, this is a one-time disposal, by way of incineration, of a capacitor.

Your guidance in this matter is most appreciated.

Ms. Scott
